

# P.Eng. Licensure

## Category Description

OSPE's Journey to P.Eng. covers all the steps involved in acquiring a professional engineering license. From writing the Professional Engineers Ontario's licensing exam to getting coached on how to prepare your experience record, OSPE has it all.

## Courses

- The P.Eng. Licence: How OSPE Supports Your Journey (Webinar)
- National Professional Practice Exam (NPPE) Preparatory Course
- Preparing your Experience Record for PEO's application process
- PEO Technical Exam Preparatory courses
  - Can be offered in the following engineering disciplines: Building, Chemical, Civil, Construction Management, Electrical, Environmental, General Engineering, Geomatics, Industrial, Industrial Data Communication Systems, Mechanical

## Features

This corporate learning stream offers live instructor-led courses with access to online course material. Courses are designed using case-studies and some offer cross-functional team exercises. Please inquire for a virtual or in-person offering of the courses.

## Sample Learning Outcomes

- Learn and understand the Canadian legal system, including tort law, contract law, business organizations, legal duties of engineers, professional liability, construction law, competition law, property law, employment law, human rights, and harassment
- Gain general knowledge and understanding of the Code of Ethics, an engineer's ethical duties, an engineer's professional status and the regulation of the profession, product liability and safety, professional misconduct, and disciplinary procedures
- Understand how to debrief your own "Engineering Stories" to write effectively for the Experience Record
