

Please review **IMPORTANT NOTES and VIDEO INTRODUCTION QUESTIONS** below where you will also find a registration link.

About us:

The JMP Solutions Automation & Robotics Division designs, builds, and integrates world-class flexible robotic solutions to solve challenging material handling and manufacturing problems for a variety of industries. Our projects typically last between 3-12 months and range in value from \$500k to \$10M with project team sizes between 5 and 20 members.

JMP is a North American systems integration company founded in 1987 with 16 business units across the US and Canada, JMP serves the Fortune 1000 space providing engineering services and turnkey solutions in seven core areas: process automation, control system integration, information and MES, automation and robotics systems, automated guided vehicles, material handling, and networking and security applications.

We are one of the fastest growing Systems Integrators in the world, and the only company in the world who is a Rockwell Automation Solution Partner, CSIA and RIA Certified. We have been certified as a “Great Place to Work” 2013 through 2020 and a “Best Workplaces Canada” award recipient from 2013 through 2020, including Best Workplaces for Inclusion and for Women 2020.

Explore Opportunities:

Our division is recruiting for the following positions:

- Project Managers
- Applications Specialists
- Robotics & Controls Specialists, Integrators, and Developers

- Mechanical Designers
- Electrical Designers
- Millwrights, Electricians

For this event, we are interviewing for experienced Project Managers. If you are interested in any other positions with our team, please apply through our website.

When exploring opportunities with us for this event, please record a video introduction of yourself briefly speaking to your project management experience, specifically within the Industrial Automation industry.

Why join us?

Because the Automation & Robotics division is growing so rapidly, employees have the opportunity to rapidly grow with the team into roles with elevated responsibility and impact. This past year, we added another layer of leadership, promoted employees to roles like Team Leader, Technical Lead, and Applications Specialist, and relocated an employee to Arkansas to launch a new branch. Right now, we have just over 50 people sitting in our London, ON facility and by the summer, our headcount will be over 80.

IMPORTANT NOTES:

Once you have registered you will receive an email from OSPE with links to the employer portals to record your introduction video(s).

Once you arrive at an employer portal you will enter your name, you will click on upload document and upload your resume. You will then be permitted to access the video recording area to start recording your introduction video for that employer.

You will be presented with 3 questions and you will have 1 minute to answer the question by video.

We recommend you read the [FAQ](#) document BEFORE going to the employer video online portal.

VIDEO INTRODUCTION QUESTIONS:

1. Please tell us about yourself and which engineering speciality or job title you fit best in using a specific example?

Up to 1-minute answer by video

2. What makes you the best choice for this position or area?

Up to 1-minute answer by video

3. Tell me about a specific time when those with whom you were working could not agree upon the course of action. How did you approach the situation?

Up to 1-minute answer by video

REGISTRATION:
