

Please review **IMPORTANT NOTES** and **VIDEO INTRODUCTION QUESTIONS** below where you will also find a registration link.

About us:

Weekes Engineering provides professional engineering services, project management and regulatory compliance services to general contractors, engineers and owners. They have experience and expertise with new construction, heritage retrofits, upgrades, residential, retail, commercial and regulatory compliance projects. Weekes Engineering specializes in working on building services, mechanical design (plumbing, HVAC, etc.), and regulatory investigation. Their team of professionals can help with preparing CAD plans for project and permit applications, including the design of HVAC, Plumbing, Electrical/ Emergency systems for both commercial and residential buildings. They support Ontario Building Code Compliance as well as Fire Code Compliance, for residential, commercial and industrial building projects.

Explore Opportunities:

Our company recruits Engineering Specialists, P.Eng.s., EITS and new graduates.

When exploring opportunities with us for this event you have two options:

- we invite you to tell us about yourself as you record an introduction video with respect to the specialities listed below:

Building Science. Electrical Engineering. Structural Engineering. Mechanical Engineering, HVAC, plumbing, and building energy. As well as review of industrial machines, processes, hazard materials, flammable liquids & gases.

OR

- we invite you to explore our job postings online and reference the job title you are interested in as you record your introduction video.

Why join us?

Working at Weekes Engineering is ideal for someone who is a fast learner that can apply their knowledge and be ready to learn again the next day. Project demands vary from client to client and from project to project. Hence, you will not be doing the same thing each week. Staff are BCIN qualified and materials for self-learning are made available.

IMPORTANT NOTES:

Once you have registered you will receive an email from OSPE with links to the employer portals to record your introduction video(s).

Once you arrive at an employer portal you will enter your name, you will click on upload document and upload your resume. You will then be permitted to access the video recording area to start recording your introduction video for that employer.

You will be presented with 3 questions and you will have 1 minute to answer the question by video.

We recommend you read the [FAQ](#) document BEFORE going to the employer video online portal.

VIDEO INTRODUCTION QUESTIONS:

1. Tell me about yourself and which engineering speciality or job title you fit best in and give a specific example of how your education (if new grad) or work has prepared you for this role?

Up to 1-minute answer by video

2. Tell me about a specific skill (hard or soft) or a competency you have learnt or developed recently and how this skill or competency can be applied to your engineering work?

Up to 1-minute answer by video

3. Tell me about a specific time when those with whom you were working could not agree upon the course of action. How did you approach the situation?

Up to 1-minute answer by video

REGISTRATION:
