### **About us:**

Transport Canada is responsible for transportation policies and programs. It promotes safe, secure, efficient and environmentally responsible transportation.

Transport Canada reports to Parliament and Canadians through the minister of Transport. It works with its portfolio partners, other government departments and jurisdictions, and industry to ensure that all parts of Canada's transportation system work well. Transport Canada employs about 6,000 people at its headquarters and in five regional offices across the country.

### **Our Mission**

To serve the public interest through the promotion of a safe and secure, efficient and environmentally responsible transportation system in Canada.

### **Our Vision**

A transportation system in Canada that is recognized worldwide as safe and secure, efficient and environmentally responsible.

Our Raison d'être, Mandate and Role: Who we are and what we do

At Transport Canada, we are responsible for developing and overseeing the Government of Canada's transportation policies and programs so that Canadians can have access to a transportation system that is:

- Safe and secure.
- Green and innovative; and
- Efficient.

We work towards these objectives by:

- Proposing and updating policies, laws and regulations.

- Conducting inspections, enforcement activities and surveillance of the transportation industry's equipment, operations and facilities; and
- Providing funding to organizations for projects that strengthen the transportation network, including safety improvement projects, technological innovations, and green transportation initiatives.

While we are not directly responsible for all aspects or modes of transportation, we play a key leadership role in ensuring that all parts of the transportation system across Canada work together effectively. We do so by collaborating with various groups including Indigenous people, industry, provincial and territorial governments, and international partners.
