OSPE PARTNERSHIP GUIDE

ONTARIO
SOCIETY OF
PROFESSIONAL
ENGINEERS

Vice President's Note

Do you want to be aligned with intelligent professionals shaping our economy and community? Do your products and services offer real value in helping professionals achieve business and personal success? If so, a partnership with the Ontario Society of Professional Engineers (OSPE) may be right for you.

OSPE is the only organization supporting the entire engineering community in Ontario. Our membership begins with students at campuses across the province and includes licensed professionals in every industry. Representing this diverse group enables OSPE to actively promote change in areas critical to the safety and prosperity of Ontario – a charge we do not take lightly. Quite simply, we are committed to creating the most robust operating environment for engineers today and tomorrow.

To do so, OSPE provides a variety of high-value products and services to our members that also offer opportunities for your organization to engage with this forward-thinking audience. A variety of individual partnership options exist on these pages, but the best value is an annual partnership that provides multiple opportunities to connect with OSPE's 10,000+ members.

Choosing this option allows your organization to connect with our members directly at events such as our Engineering Conference or Engineering Employment Events, while also giving you a suite of brand-building opportunities through our strategic communications program consisting of our digital magazine, electronic newsletter, blogs, and social media channels.

In exchange for your support, OSPE is committed to the highest level of professional service. As a partner of OSPE, you will be able to work closely with our partnership and membership teams to maximize the impact and value of your contribution for your growth and value-added benefits for our members.

Please review the ensuing pages and we look forward to connecting with you soon. Sincerely,

Baijul Shukla, MBA, CM
Vice President, Member Experience and Corporate Strategy

As a valued partner, you would be joining a collection of reputable organizations committed to the health of Ontario's Engineering Industry.

About OSPE

The Voice of the Engineering Profession in Ontario

The **Ontario Society of Professional Engineers (OSPE)** is the voice of the engineering profession in Ontario. We represent the entire engineering community, including professional engineers, engineering graduates and students who work or will work in several of the most strategic sectors of Ontario’s economy.

OSPE elevates the profile of the profession by advocating with governments, offering valued member services and providing opportunities for ongoing learning, networking and community building.

Our Members

72%

Professional Engineers

P.Eng. licence-holders who have made an ethical commitment towards protecting public safety.

10%

Engineering Graduates

Consultants and senior executives who have a degree in engineering.

18%

Working Towards P.Eng. Licensure

Domestic and foreign engineering graduates who are in the process of obtaining their P.Eng. licence.

2,000+

Engineering Students

Engaged future innovators studying across Ontario.

Primary Stakeholders

Engineers and Engineering Graduates

Including professors, consultants and senior executives.

Industry, Government and Academia

Including leaders from multinational and Canadian corporations, universities, and government agencies.

Human Resources Professionals

Including HR, learning and diversity leaders.

Annual OSPE Partnerships

A partnership with OSPE is an opportunity to support the safety of our community and the growth of our economy. OSPE is committed to being the voice of the engineering community, a role that increasingly requires expertise across all industrial sectors. We support our growing membership with a suite of valuable services ranging from world-class professional development to the opportunity to help shape Canada’s future through volunteer advocacy. As our partner, you not only have the opportunity to engage our members through strategic communications, and at our many events, but also the chance to be a champion for a robust and diverse engineering profession committed to solving real-world problems.

Level 1 - Premier

Our "premier" level of partnership offers the greatest level of value. As a premier partner, we deliver ongoing opportunities for you to engage our audience and bring them to your brand.

Level 2 - Signature

Our “signature” level enables your brand to be included in our journey throughout the year, including opportunities to connect with our audiences directly.

Level 3 - Innovator

At our “innovator” level you are staunchly with OSPE supporting what matters most to our members and the engineering community.

FREQUENTLY ASKED QUESTIONS

ABOUT THE OSPE LIABILITY INSURANCE PROGRAM

What is Professional Liability Insurance (PLI)?
Professional Liability Insurance (PLI), also known as Errors & Omissions (E&O), protects you against liability or allegations of liability for injury or damages that have resulted from a negligent act, error, or omission that has occurred out of your professional capacity as an engineer. Your coverage includes payment of both compensatory damages and expenses incurred in a lawsuit.

What is Commercial General Liability (CGL)?
CGL insurance provides coverage to protect against claims arising from injury or property damage that you or your firm may cause to another person as a result of your operations and/or premises. For example, a client slips and falls on a wet floor at an engineering meeting at your office or an employee accidentally causes property damage when working on site.

This coverage is recommended for engineers who own or operate their own business. Coverage is also recommended for self-employed engineers who contract out their services or list under their business name. If you sell products, conduct retail work or oversee projects, this coverage is strongly recommended.

How much coverage do I need as an engineer?
Engineers have access to a range of limit options through BMS. When determining your level of coverage, you should consider the size of your projects and overall risk appetite among other factors.

How much does Professional Liability and Commercial General Liability insurance cost for engineers?
Premiums are driven by a number of factors, including your area of practice, coverage limits, deductibles, project sizes and claims history.

Are there specific exclusions in Professional Liability insurance policies for engineers?
Coverage, terms & conditions and exclusions do vary between PLI/E&O policies. Please contact us with a broker to get through your policy in detail. Common exclusions include malpractice and claims arising from outside of the professional's scope of practice or project.

If you would like to secure a quote or require more information about the various insurance policies available to engineers, please contact BMS at 1-844-294-2777 or esp.insurance@thePersonal.com, or visit www.ospe.thePersonal.com

OSPE’s Annual Engineering Conference

Blue Mountain | November 3 - 4, 2025

Hosted by OSPE, The Engineering Conference brings together stakeholders from across the profession to discuss the future of engineering. This event will gather thousands of engineering and STEM professionals, current students and recent graduates who are seeking employment, and subject matter experts from across industry, government and academia. Partners will have the opportunity to provide speakers and panelists for the day’s learning sessions, as well as to showcase their organizations and recruit employees via trade show booths.

Federal & Provincial Advocacy

OSPE serves as the voice of engineers in Ontario, advocating for policies that promote innovation, sustainability, and economic growth. Our organization represents over 10,000 members who are committed to making positive contributions to our province’s safety and economic future. We are dedicated to advancing the engineering profession and addressing critical issues that affect our communities.

Invite Only OSPE Reception Partnership Opportunities

OSPE is seeking partners to help increase the collaboration between engineers and policymakers. Your organization’s support will play a pivotal role in making this event a success for all participants.

We are excited to offer Partnerships that can align your brand with the prestige of engaging our elected officials in meaningful advocacy.

Presenting Partnership - \$10,000

- Prominent logo placement on event materials
- An exclusive speaking opportunity during the event
- Recognition as a partner in all event communications
- Opportunity to present a “gift” to event participants

Supporting Partnership - \$3,000

- Logo placement on event materials
- Recognition in event communications
- Opportunity to present a “gift” to event participants

Why Partner?

Partnering in support of OSPE’s advocacy activity directly contributes to strengthening the bond between engineers and policymakers in Canada. Your support ensures that the point of view of the engineer is heard by key decision-makers, reinforcing your commitment to safety, sustainability, innovation and progress.

Benefits of Partnering the OSPE MP Reception include:

Enhanced Visibility:

Elevate your company's profile among engineering professionals and government representatives.

Networking:

Access to a diverse and influential audience, including MPs, engineers, and industry leaders.

Thought Leadership:

Showcase your commitment to advancing critical engineering-related issues in Canada.

Community Engagement:

Demonstrate your support for the engineering community and its efforts to create a better future for Canada.

Engineering Employment Events (E3s)

OSPE’s E3s are the only engineering-specific job events in the province that provide engineers and engineering graduates with an opportunity to speak one-on-one with leaders and hiring managers from top-rated companies. The E3s are conducted in both face-to-face and virtual formats.

Some of Our Past Partners:

Partner at E3s

E3 Exhibitor Partner - **\$1,500**

Exclusive E3 Partner - **\$20,000**

Partner with OSPE for an exclusive E3 for your organization in the city of your choice.

What Employers Think

“Compared to a traditional career fair, I felt the event was much more strategic, pairing us with appropriate candidates through the video screening system. I believe this helped us save time and allowed us to focus our energy. Thank you for inviting us to the event!”

- FM Global

“Bruce Power was honoured to participate in OSPE’s Virtual Engineering Employment Event in November 2020. The provided platform allowed for a unique opportunity to meet ‘face to face’ in a virtual environment and supported the pre-screen process and later a formal interview of selected applicants. Candidates were well prepared and highly skilled, making this an excellent hiring tool for small and larger organizations looking to hire engineers. We can’t wait to participate in the next event!”

- Bruce Power
