

Journey To P.Eng.

Category Description

OSPE makes achieving licensure easy with comprehensive preparation support for those applying to Professional Engineers Ontario (PEO). OSPE's Journey to P.Eng. program gives Canadian and internationally trained engineers the structure, guidance, and confidence to successfully navigate the P.Eng. licensure process.

OSPE's P. Eng. Designation Preparation program is for:

- Canadian trained engineering graduates who want to apply for licensure with PEO
- International Engineering Graduates who want to apply for licensure with PEO
- Engineering interns (EITs) already registered with PEO but who have not yet gained their license

NPPE Prep, CBA Workshops, and Licensure Bundle sessions run throughout the year in virtual formats. Participants can register for individual components or full licensure bundles.

Courses

NPPE Prep Course

- Expert-led course covering ethics, professional practice, Canadian law, and liability
- Includes exam format orientation, curated study materials, and mock tests

Competency-Based Assessment (CBA)

- Two-part workshop (Workshop A & B), 4 hr each
- Teaches all 34 required competencies across 7 categories
- Practical exercises and expert feedback

Technical Exam Prep

- For applicants needing PEO's technical exams (4 required: 2 Group A, 1 Group B, 1 Complementary)
- Virtual, instructor-led sessions tailored to discipline
- Helps build the skills to ace exam sittings

Licensure Readiness Bundle

A combined virtual program for IEGs:

- Stage 1: CBA prep – 3 group workshops, 2 coaching calls
- Stage 2: Enhanced NPPE preparation – cohort sessions, 2 full mock exams
- Stage 3: Career & employment support – job coaching, OSPE membership, event access

Bonuses:

- 1-year OSPE membership & employment event access
- Mentorship opportunities
- Exclusive access

*Individuals must meet the eligibility requirement and must apply and be accepted into the program.
